

Pen Holder

SUPPLIES AND TOOLS:

SKILL LEVEL: Beginner

- POPTape™: Skulls Ahoy, Plummy Plum Purple, Zany Zebra.
- Tin Can.

Step 1

Measure the circumference of your tin. Cut or tear a piece of POPtape in each of your selected colours, make it 2cm longer than the circumference of the tin.

Step 2

Wrap the bottom portion of the tin with your first colour. If you like you can leave a gap for the metal to show through in between your sections of POPtape. Add the second layer of POPtape above the exposed metal portion and then your third.

Step 3

There will be a portion hanging over the top edge of the tin, which can be folded to the inside of the tin to cover any sharp edges.
