

Trio Bracelet

SUPPLIES AND TOOLS:

SKILL LEVEL: Beginner

- POPTape™: Any colour/pattern. We used Pinkalicious Pink, Sweethearts, Magical Unicorns, Dynamite Red.
- Non-stick Scissors/Craft Knife.
- 3 x 20cm pipe cleaners (optional).

Step 1

Cut or tear a 20cm piece of POPTape in one of the colours you want to use. Lay the tape sticky side up on your work surface and put the pipe cleaner along the bottom edge.

Step 2

Roll or make small folds in the tape to completely enclose the pipe cleaner. NOTE: Roll the pipe cleaner if you want a round bracelet or fold it if you want it flat. If you are not using pipe cleaners, just create small 1cm folds in the tape smoothing out the folds before creating the next one. Repeat with both of the other colours you want to use to create 2 more bracelets. Shape the bracelets into a circle and join together with a small piece of tape in the same colour.

Step 3

To join your trio of bracelets together, cut a 10cm piece of tape and lay sticky side up on your work surface. Starting from one long edge, make 5mm folds in the tape until it is folded into a narrow strip.

Step 4

To finish your bracelet, use the strip of tape from Step 4 to make a circle around all 3 bracelets and secure it with a small piece of tape in the same colour.
